

CALL FOR PAPERS

Special Issue on

“EMERGING TECHNOLOGIES FOR ICT AND ENGINEERING”

Digital economy aims to drive innovation development which can lead the countries toward digital era. It is known that the Internet-of-Things-one of emerging technology-has been becoming popular as it enables inter-networking of physical devices and trigs a massive influx of big data. Currently, Emerging Technology plays a significant role in a digital economy across a wide range of sectors e.g., food, agriculture, health, robotics, driven by transforming how business is being done.

This special issue aims to share and inspire researchers in both theory and applications to have the next emerging technology in ICT which can impact industry 4.0.

TOPICS OF INTEREST INCLUDE, BUT ARE NOT LIMITED TO:

- **INFORMATION TECHNOLOGY**

Distributed Systems, Knowledge Discovery, Big Data and Data Mining, Visualization and Computer Graphics, Multimedia Technology, Human Computer Interaction, Social Media, Mobile Computing, Internet of Things, Software Engineering, Information Systems, Decision Support System, Digital Marketing

- **SIGNAL PROCESSING & MACHINE INTELLIGENCE**

Artificial Intelligence, Machine Learning, Applications of GPU for Machine Learning, Signal and Image Analysis, Image Understanding, Computer Vision, Natural Language Processing, Bioinformatics

- **COMMUNICATION & NETWORK TECHNOLOGIES**

Networking and Telecommunication Systems, Wireless Ad-hoc and Sensor Networks, Cooperative Communications, Vehicular Communications, Information Theory, Software Defined Networking

- **CONTROL SYSTEMS**

Robotics and Autonomous Systems, Intelligent Control, Industrial Automation and Control Systems Technology, IoT Device Control System

SUBMISSION GUIDELINES

- For Initial Submission, papers must be submitted in PDF format and should not include author's name and affiliation information.
- Papers must be written in English.
- Papers should be submitted to the Guest Editor via e-mail address at icitee2017@it.kmitl.ac.th

IMPORTANT DATES:

Paper Submission Due: **23 February 2018**

First Notification: **1 April 2018**

First Revision Submission Due: **22 April 2018**

Second Notification: **13 May 2018**

Second Revision Submission Due: **3 June 2018**

Notification of Final Acceptance: **24 June 2018**

Camera Ready Due: **8 July 2018**

Expected Publication Date: **September-October 2018**

PUBLICATION FEE

Publishing an article in Special Issue on “Emerging Technologies for ICT and Engineering” requires Article Processing Charges of 200 USD that will be billed to the corresponding author of each article following the acceptance of an article for publication.

GUEST EDITOR

Asst. Prof. Dr. Olarn Wongwirat

King Mongkut's Institute of Technology Ladkrabang, Thailand
